Start a career after your A Levels

Finance Apprenticeships commencing in 2024

UNW's established and award-winning apprenticeship programme is the perfect platform to launch a career in accounting after school or college. The programme will not only aid your personal and professional development but will also enable you to gain valuable skills that will benefit you throughout your working life.

What's in it for you?

Working initially towards your Association of Accounting Technicians (AAT) qualification over 3 years, you'll gain vital practical experience that will give you a great head start in your career. Throughout the term, you will receive support and guidance from our existing apprentices and will have a dedicated 'buddy' who will help you build your knowledge and learn technical skills. With first-class, on-the-job training, alongside classroom-based learning, you'll be earning money rather than paying university fees and will be gaining experience of the working world and developing workplace skills.

Who is this ideal for?

If you've completed your A Levels and want to head straight into an accountancy career, then our apprenticeship programme is the perfect next step for you to take – if university isn't for you then this is an excellent opportunity.

At the end of the three-year programme, it's hoped that, in addition to gaining significant experience and earning the AAT Levels 3 and 4 qualifications, you would progress to an advanced professional qualification and become a fully-fledged chartered accountant.

Duration: 3-year training contract with the opportunity to progress onto gaining a chartered accountancy qualification.

Location: Newcastle upon Tyne city centre (office based).

Requirements: To apply for our apprenticeship programme, you will have completed your A Level studies, gaining at least 3 grade Bs and have a minimum grade '6' (B) GCSE in both Maths and English Language.

What makes UNW a great place to work?

When we ask our team members what makes UNW a great place to work, time and time again they say it's the people that they work with.

Supportive, friendly, progressive, flexible, inclusive, welcoming, approachable, ambitious, caring and fun are just some of the words they use to describe UNW's culture.

And it's that unique culture, built on hard work and a commitment to providing the very best service to our clients that sets us apart from others and attracts some of the brightest and most experienced talent to UNW.

About UNW

Based in Newcastle upon Tyne, UNW is an independent chartered accountancy and advisory practice committed to delivering expertise that adds value to our clients. We act for enterprising businesses, individuals and not-for-profit entities including charities and academies across a range of sectors.

With 16 partners and a 185-strong team, we remain an independent practice with an enviable pedigree, both in terms of the quality of our people and our client base.
